Applications (BCA)**

Organisation - Alfido Tech

**Internship Domain - Digital
Marketing**

Task Number – 3

As part of my Digital Marketing Internship at Alfido Tech, I completed Task 3 – Thumbnail Campaign. The purpose of this task was to create an attractive and engaging thumbnail that could be used to promote digital content and capture the attention of the target audience.

A thumbnail plays an important role in digital marketing because it is often the first visual element that a viewer notices before deciding whether to open or watch the content.

For this task, I created a promotional thumbnail using appropriate visual elements and a clear layout. The design was developed with focus on readability, colour combination and audience engagement.

The thumbnail was designed to ensure that the important information could be understood quickly. Different design elements were arranged carefully to maintain a clean and professional appearance.

The thumbnail was created using a digital graphic-design/editing tool.

The tool was used to arrange images, text, colours and other visual elements into the final promotional design.

The Thumbnail Campaign – Task 3 helped me understand the importance of visual content in digital marketing. Creating an effective thumbnail requires a combination of creativity, visual communication and audience awareness.

This task improved my understanding of promotional design and gave me practical experience in creating digital

**marketing content suitable for
online platforms.**
